THANKS MOTHER

From where do you find the energy Mother,
To do all the things !
You were my teacher, nurse and counsellor,
when I was a kid.

How did you do it all Mother,
because it was not easy.

A chauffeur, a friend and a cook ,
yet find time to read me a book .

I just can't comprehend your love Mother,
That made you come, whenever I called.

To your infinite love, I salute ,
and promise to give you back all.

- ⇒ What goes through cities and fields, but never moves ?
- ⇒ What has lots of eyes, but can't see?

FREEDOM OF TEENAGERS

Every child wants freedom from rules at certain age,
And this certain age, is known as Teenage.

Every teen wants to work like a joyous elephant,
And everyone thinks oneself to be very intelligent.

Everyone shows one's aggression,
And ends up saying that I am in depression.

Don't show the fashion of infinity,
Just try once the beauty of simplicity.

Age is just a number will progress on its pace,
Each day will prove itself , as a teaching phase.

So friends , lighten up your mood and don't be rude,
Bake a cake , cook pasta or any delicious Indian
food !!

पेड़ बचाओ

मिट्टी को जकड़े हैं रहते ,
सब को स्वच्छ हवा भी देते ।
फिर भी है डरते कि ,
कहीं कोई उन्हें काट ना दे।
भूमि को उर्वरक है बनाए ,
शीतलता का मेघ भी दे।

फिर भी हैं डरते कि,
कहीं कोई उन्हें काट ना दे।

पेड़ों से इतने है लाभ,
तो मनुष्य इन्हें क्यों हैं सताते।
आओ मिलकर कसम हम खाएँ,
इनका संरक्षण अपना धर्म बनाएँ।

NUKKAD NATAK PRESENTATION

Under the campaign of District Level Nasha Mukta Abhiyan “Nukkad Natak Manch Pratiyogita” was organized at **Blue Bird High School**, Sector 16, Panchkula, in which 10 teams from different schools participated.

Chandrayaan-3

The successful launch of Chandrayaan-3 is a major achievement for India, and it is something that young students can learn a lot from. This mission is a reminder that there is still so much that we do not know about the universe, and it is a result of hard work, dedication, creativity, innovation, and teamwork. Children are conscientious by anything that involves the outer space, the moon, the stars, clouds, rockets, spaceships and flying saucers. So the students of the Blue Bird High School enthusiastically celebrated the historic success of Chandrayaan -3 soft landing on the moon by making drawings and writing poems on it.

MOTHER NATURE

Come, come ,oh my dear child! here you will feel fresh and cheer.

Lots of birds will charm you With their melodious voice,
With this You can make a healthy choice.

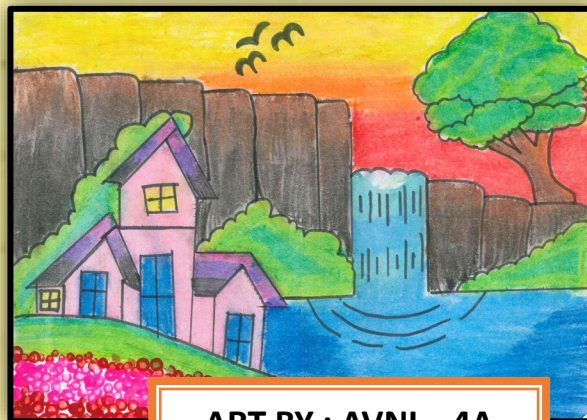

Get up and take the fresh air of the lush green swaying trees.

Come and do some exercise in gentle breeze .

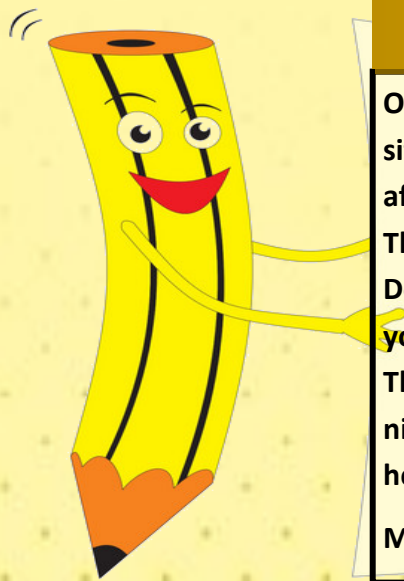

Come, come, oh my dear child! I will be happy to see you here.

My blessings are with you and your sorrow will disappear.

THE PEN AND THE PENCIL

One day, a pen and a pencil found themselves sitting next to each other on a desk. It was late afternoon and they didn't have much work to do. They started talking. The pen asked the pencil," Don't you feel sad that every time someone uses you, you get shorter ??

The pencil replied " I would feel sad in the beginning. But then, I saw the beautiful drawings that I helped draw and realised how lucky I am.

Moral: Be Thankful For What You Are.

Mystery of number FOUR Maths Black Hole

You must have heard about 'Black Hole' in Science. A Black hole is a region in space, which absorbs everything. But do you know; there is a Black Hole in Maths too? Isn't it surprising!!

Yes! There is a black hole in maths too.

Number '4' (Four) is a Black Hole number in Maths. Why is number 4 known as Black Hole number?

Let's solve this mystery.

'4' is called Black Hole number because any word that you write in the English language always ends at 'Four' (4).

Lets see an example:

Choose any word in your mind:

Example 1: 'alphabet'

Now count letters in the word **alphabet** so there are a total 'Eight' (8) letters.

Now count letters in **Eight**, there are 5 (Five) letters.

Now count letters of **Five**, there are 4 (Four) letters.

Now count letters in **Four**, there are 4 (Four) letters.

So it ends at '4'. Hence '4' is a black hole number.

Example 2: **Let's try your name**

My name is 'Pranshul Jindal'

Total letters in my name is 'Fourteen'

In 'Fourteen' there are 'Eight' letters

In 'Eight' there are Five letters

In 'Five' there are 4 letters

So it again ends at '4'. Hence '4' is a black hole number

माँ

मैं अपनी माँ को एकदम अभिभावक तथा शिक्षक के साथ ही अपनी सबसे अच्छी मित्र भी मानती हूँ क्योंकि चाहे कुछ भी हो जाए लेकिन मेरी माँ का मेरे प्रति स्नेह ही कभी कम नहीं होता , मैं जब भी कभी किसी कठिन परिस्थिति में होती हूँ , तो मेरी माँ बिना कहे ही मेरी समस्या को समझ जाती है और उसका समाधान कर देती है। एक स्त्री अपने जीवन में बहुत सारे रिश्ते निभाती है लेकिन इन सब रिश्तों में माँ का रिश्ता सबसे पवित्र और सुंदर माना गया है मातृत्व वह बंधन है जिसे शब्दों में नहीं पिरोया जा सकता। माँ अपने बच्चे के पैदा होने के साथ-साथ उसके लालन-पालन का पूरा दायित्व अपने सिर पर ले लेती है। माँ ईश्वर का दूसरा रूप है इसीलिए कहा गया है कि ईश्वर सब जगह नहीं हो सकता था इसलिए उसने माँ को बनाया। अंत में मैं केवल यही कहूंगी कि मेरी माँ मेरे जीवन का आधार स्तंभ है । मेरी माँ मेरी मार्गदर्शक है माँ के होते हुए मेरे जीवन में कभी कोई समस्या नहीं आ सकती ।

I'm glad to be me

I am glad to be me, as you can see,
There is no one else I would rather be,
I love my eyes, my nose and chin,
My heart, my soul, and all within.
I may not be the tallest and stout green tree,
Or a small and a tiny bird that is free ,
I am a young child , full of life and glee,
And I am glad, to be the best that I can be .
With all my talent and charms on show.
I am unique, letting things come and go.
God has created me to work and shine,
Hence, I will always be one, of a kind.

प्रकृति का सन्देश

सावन का महीना आया है,
गगन ने पानी बरसाया है ।
निरंतर बूंदों की छम - छम से,
नदियों में उफान उठ आया है ।
तोड़ दीवारें बाँधो की,
गावों में जल भर आया है ।
जन माल का हुआ नुकसान बहुत ,
जो देख कर मन घबराया है ।
प्रकृति से , हो रहे विविध खिलवाड़ों ने
जान जीवन नष्ट करवाया है।
रौद्र रूप दिखला मौसम ने,
मनुष्य को रूकने का ,सन्देश भिजवाया है ।

MATHEMATICS NATURE

Maths here ,Maths there, Maths - Maths everywhere,
It taught us count -
the goodness of nature, that goes to infinite.
It taught us add -
more humanity in atmosphere ,that make the
world bright.
It taught us subtract-
the pollutant of earth, to make the air light.
It taught us multiply-
the sustainability, to promote future's flight.
It taught us divide-
the use of plastics, to avoid the dark night.
WOW!!!!!!!!!!!!!!!!!!!!!!!!!!!!
Maths has solved all our problems without any fight.

SEEMA

LETTING GO

When a bird flies away,
or a leaf sheds from a tree,
Is it the marking of a new journey
or welcoming the spring of glee?

Why is the town painted in red
on a daughter's marriage day?
If the father is in tears
on watching her drift away.

Why is separation required
if it somehow causes pain?
Some lose their will,
Some are driven insane.

But when you lose the moon
The sun is yet to rise.
When the trees are left bare
Spring is in disguise.

If you tend to lose
Do not let your emotions drain
'Cause every cave opens to a bright end
And there's a lot more to gain.

Experience fills your pockets
Your fears are sure to shed.
The segregation should not be all gloomy
It inaugurates a beautiful journey ahead.

A dark night is not the end
We'll get to see the full moon.
So what if a dandelion lost a bud?
It will turn into a flower soon.

You'll have to leave your toddler's hand
So he'll stand, walk and then succeed.
So what if letting go hurts?
It's something you still need.

POINT TO PONDER :

You should identify your priorities in life and develop a good strategy to work towards fulfilling it rather than wasting your time and effort on unnecessary aspects of life.

जीवन

जीवन का सफ़र बेहद सरल है
अगर नहीं समझ सके तो ये गरल है।
आओ ,सच्चे अर्थों के साथ आगे बढ़े
जीवन नैया को प्यार की पतवार से आगे बढ़ाए।
आपसी मेल जोल और सौहार्द का परचम लहराए
जात पात ,ऊंच नीच का भेद मिटाए।
सबको अपना बनाए।
परिश्रम को साथी बनाए
निंदा से दूर रहें
भूल हो भी जाए गर किसी से
उसे भूल जाए।
पाक दामन रखें,
जीवन की बगिया महकाए।
सोए हुए, सपनों को साकार बनाए।
सच को जीवन का आधार बनाए।
नफ़रत का दामन छोड़,प्यार बढ़ाए
जीवन देने वाले दाता का आभार मनाए।

सत्संगति अमूल्य धन

मनुष्य पर संगति का असर अवश्य होता है। सत्संगति यानी सज्जन और गुणीजनों का साथ ,जिससे मनुष्य में अपने आप अच्छे गुणों का विकास और उदय होता है । सत्संग उस पारस पत्थर के समान होता है ,जो लोहे को भी सोना बना देता है । एक दुराचारी व्यक्ति भी विद्वान और सदाचारी व्यक्तियों की संगति से बदल जाता है सज्जन सदैव सद्गुणों की ओर प्रेरित करते है, शुभ संकल्पों को दृढ़ता प्रदान करते हैं । सत्संगति से दया, करुणा, प्रेम ,सहिष्णुता आदि गुणों का विकास होता है । व्यक्ति का चरित्र निर्मल और पवित्र हो जाता है । बुद्ध की संगति से अंगुलिमाल जैसा डाकू भी मानवता की राह पर आ गया । डाकू रत्नाकर सत्संगति के प्रभाव से कवि बाल्मिकी बन गया । विद्यार्थी जीवन में तो सत्संगति का और भी महत्व है । विद्यार्थी जीवन ही भावी जीवन की आधारशिला है; अतः इस समय अपना संग - साथ देख समझकर चुनना चाहिए । अनुशासन संयम और उदारता सत्संगति से ही प्राप्त होता है।
